Customer Reviews

Honest Solutions from People Who Know

Don't take our word for it, see what our happy customers are saying about our service

SHANNON ROBERTSON, RN

Clinical Quality Director, Louisiana Primary Care Association

"The Louisiana Primary Care Association would like to express how instrumental Honnete was in guiding our member health centers through the process of patient centered medical home (PCMH) recognition. The Honnete team was always available to us via email and by phone to answer our questions in a timely manner. The PCMH submission process proved to be both a challenging and satisfying process for our member health centers, however we believe the Honnete consultants played a critical role in their recognition. They provided many resources to prepare our Primary Care Association staff to sit for the PCMH Certified Content Expert exam. Honnete's suggestions and recommendations were crucial to our staff successfully passing the exam. As a result of this successful collaboration, we invited the Honnete team to conduct an in-person training on the PCMH transformation. The training provided gave our health centers a renewed mindset and confidence in the process improvement journey; thus, resulting in improved patient-centered care and health center operations."

NIKKI RAYMOND, MS, MBA

Chief Executive Officer Georgia Hope

"I worked alongside Honnête's consultants for one year to support our behavioral health operational improvement efforts. The guidance was top-notch and deeply trusted. Our agency accomplished goals that positioned us extremely well nationwide as a leading comprehensive mental health servicer. Honnête's team pushed us outside the box with an incredible return on our investment."

DEEANN BANNISTER

Manager, Quality Improvement University of Colorado Health

"Our large medical group set out to achieve first-time NCQA PCMH recognition for 20+ practices in 18 months. The project seemed immense until Honnête stepped in with a clear path to success based on remarkable depth of experience, procedural proficiency and relational acumen. I can't count the number of times our team of smart, energetic people tied ourselves in knots over a topic only to have Honnête bring clarity and coherence through well-informed, thoughtful, encouraging and strategic guidance. Honnête succeeded in understanding our unique needs and providing unparalleled excellence in service, availability, training and innovation."
